Kids, Vaayu & Corona: Who wins the fights? (A comic series for COVID-19 awareness)

There is growing concern and perceived threat about the Coronavirus among common citizens. The population of all ages are making use of available media such as newspapers, social media, and television to make themselves aware. From adults to children, most of the discussion these days are centering around the Coronavirus. But for children, especially those below the age of 12 years, Coronavirus has become a cause of concern as they are not able to comprehend the talks and getting worried. The parents should talk to them and resolve their queries so that they do not panic.

Sometimes parents might be busy, and they might not be able to resolve their queries. Considering this PGIMER- Chandigarh, India, and Panjab University-Chandigarh, India created a comic to make children aware about the threat of Coronavirus and how to remain safe through simple precautionary steps. This comic is created to learn, along with fun, and motivate children to be a hero of prevention by defeating Corona.

Vaayu is a global citizen who lives in the foothills of Himalayas, India. He is a superhero, who work for the better public health and environment. He has been called to fight against global threat of Coronavirus and to protect children from sudden panic and fear.

Technically Vetted by:

A superhero with black hair, wearing a white long-sleeved shirt, a blue cape, and brown pants, is flying through the air. He is looking down towards the ground. A large green tree is on the left, and a city skyline is visible in the background under a light blue sky.

Oh, kids seems to be panic.
I must visit them.

The superhero is on the ground, walking towards three children. The children are looking up at him with concerned expressions. The setting is a park with green grass, trees, and a city skyline in the background. A street lamp is visible on the right.

What happened
kids?

The germs and bacteria hide at a place, where it is hard to kill them. So, we need to wash our hands properly. Now follow with me these seven steps.

Also maintaining social distance

Avoid going in crowded places or functions

Oh!!
That's why our school's are closed.

Kids! if not urgent, please avoid travel to the place where Coronavirus is reported.

Thanks Vaayu!
We will also ask our parents to avoid travel if possible.

If you have cough, fever
or difficulty in breathing, contact a doctor
immediately and follow the advice
given by your doctor.

Hello kids!

Great! these are
simple steps to defeat
Coronavirus or
other germs.

Thank you, Vaayu ! These are simple steps and in this way we can defeat the Coronavirus.

Yes kids, together we will defeat Coronavirus and other infections.

Let's follow the simple steps and break the chain of infection and be the hero by preventing the diseases.

Yayyyyyyy ! That's a good break the chain of infection.

That's good, please also teach your friends and ask them to be active about the spreading germs and viruses.

Ok kids, now tell me,
How can you defeat corona virus?

By washing
hands properly.

By maintaining
social distance.

By greeting
traditionally.

Maintain &
Proper hygiene

If sick, follow
doctor advice

Coronavirus FOR CHILDREN OF AGE GROUP 9 TO 12 YEARS

Corona Viruses are a large family of viruses that causes illness ranging from common cold to more severe diseases , such as Middle East Respiratory Syndrome (MERS- CoV) and Severe Acute Respiratory Syndrome (SARS-CoV).

Common signs of infection include respiratory symptoms cold, fever, cough, and breathing difficulties. In more severe cases , infection can cause pneumonia , severe acute respiratory syndrome , kidney failure and even death.
